<b>Avision Scanners (See product list at end of chart for models)</b> <b>Infringement of the '528 patent</b>	
<b>Claim 1</b>	<b>Evidence &amp; Specification Support</b>
1. A method of reporting an end of a scanning session to a user, comprising the steps of:  selecting a peripheral device capable of reporting the end of a scanning session to the user; and	<p>The Avision scanner performs a method of reporting an end of a scanning session to a user.</p> <p>For example, the scan-to-destination feature scans and sends images to e-mail, printer, or clouds servers such as Google Drive™, or Evernote® [1]</p> <p>The Avision scanner selects a peripheral device capable of reporting the end of a scanning session to the user.</p> <p>For example, when performing the scan-to-destination feature such as e-mail, Google Drive or Microsoft SharePoint, the scanner selects a connected peripheral computer to send the scan report and scan to the predefined destination.</p> <ul style="list-style-type: none"> <li>● Scans and sends the image to a predefined destination including e-mail, Google Drive or Microsoft SharePoint with a single press</li> </ul> <p>[2]</p>
	<p><b>Specification Support</b></p> <p>According to the patent description:</p> <p>“The peripheral devices for reporting the end of a scanning session to a user can be a sound card capable of emitting a sound, the loudspeaker inside a computer system, <u>a network card inside a computer system capable of sending electronic mail to a user's mailbox</u>, or a data recorder capable of dialing a user's telephone number, pager number or mobile telephone number.” (Underlining added)</p>
notifying the user through the selected	The Avision scanner notifies the user through the selected peripheral device after a series of

peripheral device after a series of scanning tasks has ended.	<p>scanning tasks has ended.</p> <p>For example, when the predefined destination is e-mail, the scanner notifies the user to which the e-mail account belongs by sending the scanned image to that e-mail account. The scanner does this by using its USB or network interface connection (depending on the scanner model) to communicate with the peripheral computer system. The e-mail is itself a notification to the user that the scan task has ended.</p>
